CHIEF RIBBLE, ADA LABOR LEADER HAS MUCH BIG TALK WITH NEWS

Twenty-five Cents or Nothing. Talk About Ditcher a Scarecrow. Declares Men Will Do As He Says; Fitzgerald Criticised by President Ribble.

Mr. Thomas Ribble, president of the Ada local of the American Federation of Labor, was a caller at the News office today. Inquiring of him as to the local labor situation, president Ribble, in substance stated: "The union met last night in a large meeting probably 225 members of the newly organized union being present. The principal business of the session was that incident in the taking in of new members, concluding the details of the organization and the full consideration of the proposition of Mr. Fitzgerald to return to work on the scale of twenty cents and upward. Those other than members of the union addressing the meeting were the mayor of the city, Hon. L. J. Little and attorney for the union, Judge R. C. Roland. Judge Roland delivered an address which was very much appreciated. The mayor urged some action which would refrain Mr. Fitzgerald from bringing in the ditcher or steam shovel, but advised a vote on all matters requiring a final decision. Mr. Little showed himself as being a friend to the union side of the proposition. A vote was had on Mr. Fitzgerald's proposition of a scale of 20 cents and upward and the negative vote was absolutely unanimous. When the union had voted down this proposition, I took a series of votes, first whether the union would accept 21 cents, then 22 cents, then 23 cents, then 24 cents and in each instance the unanimous vote was, 'No.' Then I put the vote as to whether the union would accept 25 cents an hour flat rate for eight hours work; the unanimous vote was 'Yes.' Inquiry was further made of Mr. Ribble, president of the local union, concerning his general attitude as president of the union toward the present labor situation. Mr. Ribble in substance made further statement following a line of inquiries made by the News reporter: 'Notwithstanding the charter will not reach here before Monday. Under the laws of our federation we are authorized to co-operate and act as a union ahead of a receipt of a charter when application has already been made for such charter. There were present last night about 225 members of the union. There are now about 75 additional applications for membership, being from citizens who are ready to come in when they secure money for labor performed which will enable them to pay their initiation fees. I would judge that there are about 400 laborers in this city, the entire number of whom we prospect getting into the union. I have found

out that the majority of business citizens, since I have talked with them, over the city are in favor of the union and the position it has taken as to the scale of wages demanded. Several merchants have stated that they would not employ teamsters and haulers who did not belong to the union. At last night's meeting, a committee was selected to utilize any monies in the treasury, there being about \$225.00 on hand now for the purpose of taking care of the family of any destitute laboring citizens, and authorization was given to purchase as much as \$5.00 worth of groceries for any such family. The committee was requested not to use any discrimination as to the stores they might patronize in the purchase of any groceries. The best people in town approve our actions, including the chief of police, Geo. Culver and the sheriff, Tom Smith. Most of the business men consider our proposition the best thing that ever came to town. I worked at the cement plant for about three months as electrician. I resigned there some time ago in order to devote more time to the promotion and organization of the local union of the federation of labor.'

Further inquiry was made of President Ribble whether he was engaged as a traveling organizer for the federation of labor and whether he came here with a single view of organizing a union. In substance, Mr. Ribble replied the following: 'No, I am merely a member of the union. If I had come here simply as an organizer, I couldn't have obtained the confidence of the common laborers. As it was, I came here and went to work at the cement plant and now I have the entire confidence of all the laborers and the larger number of the rest of the citizens. The members of the union will now do anything that I suggest. My secretary, Mr. Adams, had a conversation with Mr. Fitzgerald about the steam shovel that he threatened to bring from Muskogee on account of not being able to secure men on his proposition. Mr. Fitzgerald told Mr. Adams that the steam shovel owned by his company could not possibly leave Muskogee, for that contract there was bigger than the Ada contract and laborers more difficult to obtain. We have no confidence in Mr. Fitzgerald's threat to bring a ditcher into this town. In the first place, he can't afford to bring the one from Muskogee, and next, it will cost about \$9,000 to buy a new one and if such should be done, it would take from a month to three months to get the machine in here. I know what a steam shovel is and it will not take the place of forty-five men, that's misrepresented, and besides, you can't work a shovel where there is rock and there is lots of rock in the pathway of these trenches. Mr. Fitzgerald's contract calls for a complete job within 100 days, nearly a month of that time is past.'

President Ribble was asked how far he intended to have his union extend its operations at the present time, whether or not he intended to reach further than the public works and require the labor employed in other industries in the city to strike for high wages. In substance he replied, 'We are not strong enough yet, especially shall we refrain from interfering at the cement plant. The fifty men employed at the cement plant who belong to our union have signed an agreement to remain at the cement plant and at any rate, not to seek to secure employment on the public works in this city.'

Mr. Ribble after making the above statement, added as an after-thought that he wished it understood that he

didn't intend to give the cement people any trouble.

Ribble stated that he was responsible for the suits filed against the contractor for unpaid wages, declaring that his men needed the money and were unable to wait for pay day. The first suit filed was for 17 hours work at the claim of 25 cents an hour. President Ribble talked much and commented freely to the News reporter. The general directions of his utterances, aside from the above remarks made by him, were philippic in their character against contractor Fitzgerald. Mr. Fitzgerald's record as a contractor was severely criticised.

NELSON HAWKINS GOES UP FOR FORTY YEARS

TRIED IN DISTRICT COURT YESTERDAY—VERDICT THIS MORNING.

Full Blood Indian and All Around Bad Man Will Pay McAlester a Long Visit.

For the cold blooded murder of little six year old Martha Underwood, Nelson Hawkins was this morning given a sentence of forty years at hard labor in the state penitentiary at McAlester by a jury of his peers. The crime was committed on the 27th day of last November at the home of Wilson Toms, who was a brother-in-law of Salina Toms, the widowed mother of the child, and who lived near Franks. Hawkins went to the place in a drunken condition, and it is understood that he had had some difficulty before with the widow. At any rate she was holding the child in her lap when the shot was fired, the ball passing through the child's body and cutting off a thumb from the hand of the mother. The child died in a few hours, and on the day following Hawkins was arrested and placed in jail. After a preliminary trial he was released on bond, during which time it is said that aside from drinking he has led rather a quiet life.

His trial was commenced yesterday afternoon and finished last night, the court holding a night session in order to finish the case. The jury readily agreed on a conviction, though it is understood that some of them contended for a verdict of first degree murder with the death penalty attached. It was reduced to manslaughter, however, and Hawkins was given 40 years.

This is undoubtedly one of the most wanton and reckless crimes ever placed on the records of an Oklahoma court, and while it is marvelous that he escaped the gallows, yet, forty years in the pen, if served out, will put his marksmanship and thirst for red liquor badly in the discard.

Pontotoc county is tired of lawlessness, absolutely tired, and they are setting an example that will survive the present day citizenship by a century. If murderers and cut throats are eliminated from society it may then be said with some degree of truth that the courts of the country are the bulwarks of civilization.

MRS. LILLARD DIES.

A Resident of the Lovelady Community—Other News From That Good Section.

The News' friend, J. F. Thompson, of the Lovelady community, was a Saturday morning visitor. He conveyed the sad intelligence that Mrs. Robert Lillard of his community had died Thursday night of dropsy. Mrs. Lillard was confined to her bed about two months preceding her death. There are seven children left to mourn and suffer on account of the loss of their mother, the oldest being about 19 years of age and the youngest a baby of the age of about one month. Mrs. Lillard will be buried at Frisco today, Saturday.

On inquiry, Mr. Thompson suggested that the people of his community were getting along generally very well and that crops were in fair shape and prospects were reasonable. He stated that the rain which visited Ada on Friday also covered his country. Mr. Thompson was informed by the News man that the rain of yesterday was more or less general over the state.

MISS GLADYS TORBET HOME

Her Return Occasion of Family Reunion at Pretty Home on 17th Street.

Miss Gladys, charming daughter of Mr. and Mrs. Sam M. Torbett arrived from Belmont, the leading young ladies seminary of the east, last evening.

Col. G. H. and Mrs. Bruce (grandpa and grandma) and uncle and aunt, Mr. and Mrs. H. E. Foster each family of Ardmore came in this morning to meet Miss Gladys and to participate in the family reunion. It was thought that Messrs. Peek Bruce a prominent merchant of Pauls Valley and Stanley Bruce, prominent state insurance agent of Oklahoma City, with respective families would arrive this morning for the pleasant event of the reunion, but were delayed.

Mr. Torbett when met was smiling a smile actually contagious. He said that since Miss Gladys' return, except for short intermissions for sleep

she had continued an incessant stream of conversation, but from Colonel Sam's happy remarks it did appear that he would be glad if she should keep on forever.

Miss Gladys' numerous friends among Ada's young society will especially welcome her return home.

Scribner Indictments.

The indictments delivered to the court by the grand jury in the case of Mrs. Frank Scribner only include the Scribner brothers. While they are connected with the Putnam case by indictments, Lee, Impson and Johnson are not connected with the Scribner case.

With the rendering of these last indictments the cases are both covered, showing those who are connected and how. It is understood that these trials will commence at an early date.

LOCAL LABOR SITUATION.

There appears on the front page of this paper an article including in substance the actual comments made to the writer by one W. W. Ribble anent his attitude and position toward the local labor situation, a situation for which he claims the credit and accepts the responsibility.

The News publishes the more pronounced and intelligible comments and assertions made to its representative by Mr. Ribble for the reason that he is the accredited leader of the local Federation of Labor and it is thought that a study of his statements will enable the honest union laborers and other fair and honest citizens of the city to arrive more readily at a clear understanding of the real situation and the probable future attendant results.

The News was sincerely glad that the citizens engaged on the sewerage works enforced a proposition from the contractor proposing a substantial increase over the original scale determined by him, even, if the original scale, that of 17 1-2 cents proposed by him was an advance of 3-4 to 1 1-2 cents over the previous usual scale paid in this city for what is ordinarily termed common labor. The union turned down an offer of 20 cents and upward an hour at last night's meeting and refused to return to work for less than 25 cents an hour.

It would be fine indeed if all the citizens of Ada who must do manual labor to maintain a support could command a flat rate of 25 cents an hour for all work accomplished. It would not only enable them to afford better support for their families, but as well would afford them a few hours for rest and recreation. Then, too, if such a wage scale could be established generally and permanently throughout the city, it is thought that many business and professional men of the city, including the writer, could to advantage avail themselves of the opportunity to develop their muscles and replenish their pockets. In the event, there should be secured a general flat wage scale of 25 cents at this point, through the tactful ability of President Ribble the industries in other cities here-around many as well get in line or send for the dagoes, or else their employees will be coming to Ada by the train loads.

An honest day's labor in the ditches or any where else in this country performed by a white man should bring more than has been the custom to pay in the past, provided those agencies employing the labor can possibly maintain the business and its necessary incumbencies at an advanced wage scale. The News is perfectly confident that the qualified home loving laboring citizens of this city will handle all propositions involving labor in this city properly and successfully. It has been proven absolutely on several occasions in the past that they can be depended upon to live up to the just and the best on any proposition, and the News for one does not believe that any soft, puffy handed stranger and agitator can ever acquire any leadership over them.

Notice.

The singing school which has been in progress for the last 12 days will close tonight, Saturday. Everybody is cordially invited. Come out and be with us in our closing exercises and to see what progress we have made along this line of work. We will also sing at the court house Sunday at 10 o'clock a. m. Everybody is cordially invited to attend the services. Truly, W. R. Royal.

Sentenced Today.

Orville Weaver, who was tried and convicted in the early part of the week on a charge of receiving stolen property, was sentenced by Judge Rainey in the district court this morning. He was given a fine of \$150 and a jail sentence for six months.

GRAND JURY ADJOURNS FOR PERIOD OF TWO WEEKS

WILL MEET AGAIN ON JUNE 7TH
TO INVESTIGATE MINOR
OFFENCES.

Two Weeks Session Just Held Has
Been Devoted Principally to
Higher Crimes.

The district court grand jury which has been in session for fifteen days adjourned this morning to meet June 7th. The jury has had a strenuous two weeks session and they felt that they needed the rest. They made a final report to the court, exact copy of which follows:

To Hon. Robert M. Rainey, Judge of the Seventh Judicial District, Pontotoc County State of Oklahoma.

We, the grand jury of Pontotoc County, State of Oklahoma, for the present term of this honorable court beg leave to submit to your honor, at this time, the following report:

We have been in session for 15 days, during which time we have had sworn and examined before us 257 witnesses. We have investigated all grades of crime and as a result of our investigations, have returned into court 38 true bills of which 22 are for felonies and 16 are for misdemeanors. We would respectfully state to your honor that we have given most of our attention and time to investigating the higher grades of crime in this county and for that reason we have necessarily had to work slow and careful.

We, also state that we find that there are many other violations of the law yet to be investigated which we have not yet had time to look into. We have decided to adjourn for a period of two weeks, or until the 7th of June, when we will again convene to continue our investigations.

We, also recommend, at this time that the Board of County Commissioners of Pontotoc County, provide, at once, a private room for the district judge of this county, which can be used by him for his chambers. Also, we recommend that the said Board of Commissioners, have the back stair way to the court building repaired, at once, as we have examined it and find that it is in a dangerous condition. Also, that they see to it that the back yard of the jail be kept in a more sanitary condition, both on the inside and out side of the jail yard. We would, also, report to your honor that we have found a number of true bills for which indictments have not yet been drawn and which we have not yet reported in to court.

Respectfully submitted,

G. T. LANCASTER, Foreman.

NEGRO FIEND IS CAPTURED NEAR WEELETKA

JOE WILLIAMS, COL., WHO ASSAULTED MRS. COLE.

Mob Violence Is Feared and Officers Are on the Alert.

Weleetka, Ok., May 21.—After being trailed by a posse of officers for two days, hunted by armed farmers who were incensed over the assault made Wednesday upon Mrs. Cole, the 17-year-old bride of a month, at her home near Sharp postoffice, the unknown negro who assaulted the young woman was captured at Spring school house seven miles north of here early this morning by a sheriff's posse.

The negro did not resist when sighted, but surrendered peaceably. Had he showed fight he would have been riddled with bullets. He admitted having struck Mrs. Cole, but denied that he tried to criminally assault her. He says that he asked the woman for a drink of water and she in return struck him with a broom. Angered by this treatment, he declared he retaliated by striking her. He then fled.

Constable Wagoner in charge of the prisoner left here on the noon train for Okmulgee, where the negro will be placed in the county jail. Mrs. Cole will be brought in to identify him.

Mrs. Cole was attacked Tuesday afternoon while at work in a field near her home. She was found unconscious by a farmer who notified Mr. Whitecotton, the girl's father. She was badly bruised, but not dangerously hurt. Excitement was high in the neighborhood and the farmers left their fields to hunt the negro. All Wednesday night and Thursday armed men have been scouring the country.

Okmulgee, Ok., May 21.—Late this afternoon it was learned that Joe Williams, in charge of Deputy sheriffs Will Henry and Mark Moore, was on his way to Muskogee, where he will be placed in the federal jail for safe keeping. The officers are taking a round about way and will arrive in Muskogee on the Katy train from Tulsa at 6:55 tonight. Had he

FOR HOTEL INSPECTION.

Law Requires Inspection and a Certificate to be Hung in a Conspicuous Place.

Guthrie, May 20.—Before engaging hotel accommodations the experienced traveler will soon be looking for the certificate signed by the board of health, stating that the hotel has been thoroughly inspected, and complying with the law in all respects. The Oklahoma law requires inspection and a certificate to be hung in a conspicuous place. Dr. J. C. Mahr of Shawnee, Okla., the state commissioner of health has instructed the county superintendent of public health whose duty it is under the law to conduct these inspections, in each county, to commence their semi-annual inspection not later than June first.

Not only will the inspector give a certificate to the hotel, but will make an exhaustive report to the state board of health concerning the condition of the hotel inspected.

The state board of health will expect each hotel in the state to make a diligent effort to comply with the law that the public shall be protected in case of fire, that the sanitary conditions must be good, that the building should be properly screened and that each hotel shall be thoroughly fumigated as provided by law. A rigorous enforcement of this law will go far towards stamping out malignant and contagious diseases.

Notice to Contractors.

The incorporated City of Ada, Oklahoma, will receive sealed bids until six o'clock P. M., May 31, 1909, at the office of W. B. Jones, City Clerk of the City of Ada, Oklahoma, for the construction of extensions to the water works system. The work covered by the proposal will consist of laying complete 16,160 feet 4 inch Universal Pipe, setting all hydrants, valves and fittings, taking up and relaying 1140 feet 2 inch Universal pipe, all to be done in accordance with plans and specifications prepared by the city engineer and now on file in his office and in the office of the city clerk. Each bid must be accompanied by a certified check, equal to five per cent of the bid, which check will be forfeited to said city in the event of the successful bidder failing to enter into contract and execute a construction bond that is satisfactory to the Mayor and city council within the time as given in the proposal. All bids submitted to the council must be made upon blanks furnished by the city engineer. The successful bidder shall be required to execute unto said city a good and sufficient bond, equal to 30 per cent of the contract price to guarantee the faithful performance of said work. Four per cent of said contract price shall be paid unto said city for engineering expenses. The said City council reserves the right to reject any or all bids, to waive defects and to accept any bid.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, O.

MANIFESTED INTEREST IN ADA.

Mr. Snyder, Hoosier Capitalist and Large Ada Investor Tells the News of His and Friend's Confidence in Ada's Future.

Petersburg, Ind., May 20, 1909.—Editor Ada Weekly News, Ada, Okla. Dear Sir: I again visited Ada as you are aware of and while in your city a few days since, I fully intended to call at the office, but shortly after arriving in the city I got busy and by time was completely taken up until my departure. Mr. S. J. Haines, one of our very best business men and citizens, accompanied me on my trip, and while in Ada, I gave him the most of my time, endeavoring to show him the many good opportunities for a live business man to become interested in Ada, and he saw many opportunities for profitable investments in and surrounding your city, and in time I am afraid our loss will be your gain, as since our return home I have sounded him to the core and he says: "For many years I have had a desire to visit Oklahoma and more especially the Indian Territory proper. That part of the state," he says, "undoubtedly has a great future and many of the communities are growing so rapidly that they imagine they have all the growth; but after all, Ada looks the best to me of all the places we visited. She is certainly destined to be one of the hub cities of Oklahoma." He says, "With the amount of rich agricultural lands being put into cultivation and the new orchards, the substantial farm houses and other improvements taking place surrounding Ada for miles, with at least a quarter of a million of Dollars to be spent in Ada this year for public buildings, business houses and cozy homes, there is no reason why there should not be a record breaking advancement in real estate," and that he intends to return to Ada and get in and get his feet wet on some investments.

Some of his friends, as well as mine, are threatening to tie me up to a tree and give me thirty-nine lashes for allowing him to join me on the trip, and in order to avoid being lashed on account of Mr. Haines having formed such a favorable impression of Ada, I have laid the blame on Mr. Frank Jones and the president of your 25,000 Club, Mr. Lucas, as while in Ada on several occasions these three gentlemen were seen having a very close conference. In fact, Mr. Jones and Mr. Haines got right down to a whispering proposition, and when I approached Mr. Haines about the matter he claimed he was trying to influence Mr. Jones to write a friendship letter to a certain rich widow in our town with a view of matrimony a little later. Yours truly, H. R. SNYDER.

I quit working because I was denied the privilege of getting a drink of water so often. In company with another man and his wife and my wife, after I quit work we visited the cement plant. Mr. Curtis authorized me to leave the cement plant and not to be found around there because I had threatened to sue the company for my pay and had my name on a list organizing a union. I want to deny making any threats and establish the fact that I did not make any threat of killing Mr. Curtis and defy any one to establish the fact that I have. C. W. ADAMS.

THE FARMER TO HAVE A TELEPHONE

The dollars saved keeping in touch with the markets will pay the price many fold.

In case of an emergency when a doctor or neighbor is needed, life or property may be saved.

The telephone has done away with the old time isolation that handicapped social life in the country and drove young people to the city.

It is then a saver of life, money and property and is a pleasure to all the family. For information regarding rates and manner of securing the service consult with your nearest local manager.

One Dollar Will Make You Two in Glenwood

The Big Fortunes in Oklahoma have been made in City Property--not in one city alone but in dozens of them. Ada is a comer--come along

The splendid growth of Ada is creating a constant demand for resident lots. This reason impels us to place on the market the beautifully located

Glenwood Addition

Located on the North side of Main street, four blocks west from business on high, well drained ground overlooking Glenwood Park to which the city has a deed and will immediately proceed to beautify with grassy lawns, flower beds, graveled drives, shade trees, rustic bridges, a lake, pavillion, etc., making it the

Beauty Spot of Ada

and Glenwood Addition the choicest residence section. The great argument used by cities in favor of the creation of parks is that it doubles the value of real estate in the vicinity, thus giving enough increased assessable values to take care of the cost.

The money is in the City Treasury to make these park improvements and when they are completed you will see a rapid rise in Glenwood lot prices.

Buy Now

and get the advantage of the increase

Don't Wait

to see if these things are going to happen for if you do prices may be out of your reach and you will have lost another opportunity.

No Matter

Where the various industries may locate you are central and not dependent upon any single one but have the entire city behind your property value. The best property is close in property and especially where it is as good as the best and as cheap as the far out property.

This is the last opportunity for the better class of people of limited means to secure a choice home site close in for a small amount of money.

"A prophet is not without honor save in his own country and in his own house."

So it is with many of the people of Ada, they do not appreciate or realize what we already have behind our city nor the varied and substantial resources we have upon which to base our future growth.

No City in Oklahoma

of double the population of Ada can show as large a pay roll.

The inspector for one of the leading city loan companies remarked to the writer a few days ago that nowhere in Oklahoma in towns of similar size to Ada was property as cheap and that an increase in values was sure to come.

Ada has never been advertised but its light will not always be hid under the half bushel. The city is beginning to be talked about as one of the goodcities of the state with a bright future.

SOMEWHERE in southeast Oklahoma a large city is going to be built. Study your map and you will find that Ada has the advantage of location. Nature gave it to her. The ride between the two Boggies and Sandy gave us the Frisco. Being at the head of Boggy gave us the Katy and the gap south of town gave us the Oklahoma Central. We are in the pathway to the coal and the gulf. Other roads will come because of what we have. Factories will come because they can reach more customers out of Ada than elsewhere. History will repeat itself here the same as in other new countries. Its merely the law of supply and demand--that of supplying the demands of each section through these centers of distribution.

More good things are looming up--the impetus is gathering that will whoop along the growth of Ada and make its property owners rich. It will be your own fault if you are not one of them. Glenwood lots are within the reach of all and your profit is certain. Don't miss this opportunity.

PRICES \$75.00 to \$175.00. CORNERS \$25.00 ADDITIONAL.

OUR GUTHRIE CORRESPONDENT

Guthrie, May 21.--Acting superintendent of the state agency, S. W. Stone, negotiated with the Turk-Chanowsky Liquor Company of Gainesville, Tex., for the sale of a mixed car load of confiscated liquors consisting of beer and whisky. The sale is F. O. B. Gainesville and the price for bottled in bond whiskey was six dollars per case and five dollars per barrel for beer. The total amount was \$1,639.75.

This money reverts to the state treasurer and is used to bear the expenses of prosecuting the prohibitory law violators. This method of capturing the boot-leggers' goods and using the proceeds of the sale to bear the expenses of the prosecution appears to be a very effective way of upholding the prohibitory law. Boot-leggers engaged in the enterprise for the profits very uncertain to say the least.

Congressman McGuire is out in a long statement in which he says the election law is very very bad and will prevent good men from voting.

This is the same McGuire that declared that the Oklahoma constitution was the worst ever written and advised the people to vote against it alleging that it would ruin the state if adopted.

Mr. McGuire appears to have been actuated by selfish motives in dealing out both of the aforesaid doses of political advice.

When it is remembered that his election was gained through the enormous negro vote in his district and that the negro vote in Logan county alone is more than his entire majority, it can readily be seen why Bird is afraid that the "good men" will be prevented from voting on account of the educational test.

The different departments of state are using every effort to place themselves in close touch with the people. At the State Grain Dealers' Association, the Agricultural Department and the Corporation Commission were represented by C. F. Barrett, Sec'y. of the Board of Agriculture, and Jack Love, chairman of the Corporation commission, both of whom delivered

livered instructive addresses along the lines of the work in which their different departments are engaged.

Both addresses were well received and greatly appreciated by the Ass'n.

Volume 20 of the Oklahoma Reports containing the opinions of the Supreme Court delivered during the first five months of Statehood, is now out and ready for distribution. It is a handsome book of 950 pages, well edited and indexed. The price charged for Oklahoma State Reports contrasts strikingly with the prices prevailing during Territorial days--just one half as much, notwithstanding the new volumes contain 25 percent more matter.

The office of State Reporter is a busy one these days. Proof reading is in progress on the Session Laws 1909 and Volume 21 of the Supreme Court Reports, while the Reporter is compiling decisions for Volume 22 of the latter and Volume I of the Oklahoma Criminal reports. The great volume of opinions being handed down by the two higher courts keeps the reporting department on

the jump. Enough opinions have accumulated to fill almost two volumes for the criminal Court of appeals and four for the supreme court. Reporter Parker hopes, within a few months to catch up with the heavy output. However, the work of putting into print the law of the state is necessarily a slow process. It requires infinite pains and patience. After the weeks of careful work required for the compilation of a volume, then some sixty days must be allowed for printing and proof reading.

The News First.

The News was the first union proposition in the city and the same was promoted and encouraged by the writer. The advent of the Federation of Labor into this city is welcomed. It is hoped and believed that its fortunes will be guided by the bonified citizens and home lovers of Ada and not by agitators and disrupters.

CHIEF RIBBLE, ADA LABOR LEADER HAS MUCH BIG TALK WITH NEWS

Twenty-five Cents or Nothing. Talk About Ditcher a Scarecrow. De- clares Men Will Do As He Says; Fitzgerald Criticised by President Ribble.

Mr. Thomas Ribble, president of the Ada local of the American Federation of Labor, was a caller at the News office today. Inquiring of him as to the local labor situation, president Ribble, in substance stated:

"The union met last night in a large meeting probably 225 members of the newly organized union being present. The principal business of the session was that incident in the taking in of new members, concluding the details of the organization and the full consideration of the proposition of Mr. Fitzgerald to return to work on the scale of twenty cents and upward. Those other than members of the union addressing the meeting were the mayor of the city, Hon. L. J. Little and attorney for the union, Judge R. C. Roland. Judge Roland delivered an address which was very much appreciated. The mayor urged some action which would restrain Mr. Fitzgerald from bringing in the ditcher or steam shovel, but advised a vote on all matters requiring a final decision. Mr. Little showed himself as being a friend to the union side of the proposition. A vote was had on Mr. Fitzgerald's proposition of a scale of 20 cents and upward and the negative vote was absolutely unanimous. When the union had voted down this proposition, it took a series of votes, first whether the union would accept 21 cents, then 22 cents, then 23 cents, then 24 cents, and in each instance the unanimous vote was 'No.' Then I put the vote as to whether the union would accept 25 cents an hour flat rate for eight hours work; the unanimous vote was 'Yes.' Inquiry was further made of Mr. Ribble, president of the local union, concerning his general attitude as president of the union toward the present labor situation. Mr. Ribble in substance made further statement following a line of inquiries made by the News reporter: 'Notwithstanding the charter will not reach here before Monday. Under the laws of our federation we are authorized to co-operate and act as a union ahead of a receipt of a charter when application has already been made for such charter. There were present last night about 225 members of the union. There are now about 75 additional applications for membership, being from citizens who are ready to come in when they secure money for labor performed which will enable them to pay their initiation fees. I would judge that there are about 400 laborers in this city, the entire number of whom we prospect getting into the union. I have found

out that the majority of business citizens, since I have talked with them, over the city are in favor of the union and the position it has taken as to the scale of wages demanded. Several merchants have stated that they would not employ teamsters and haulers who did not belong to the union. At last night's meeting, a committee was selected to utilize any monies in the treasury, there being about \$225.00 on hand now for the purpose of taking care of the family of any destitute laboring citizens, and authorization was given to purchase as much as \$3.00 worth of groceries for any such family. The committee was requested not to use any discrimination as to the stores they might patronize in the purchase of any groceries. The best people in town approve our actions, including the chief of police, Geo. Culver and the sheriff, Tom Smith. Most of the business men consider our proposition the best thing that ever came to town. I worked at the cement plant for about three months as electrician. I resigned there some time ago in order to devote more time to the promotion and organization of the local union of the federation of labor."

Further inquiry was made of President Ribble whether he was engaged as a traveling organizer for the federation of labor and whether he came here with a single view of organizing a union. In substance, Mr. Ribble replied the following: 'No, I am merely a member of the union. If I had come here simply as an organizer, I couldn't have obtained the confidence of the common laborers. As it was, I came here and went to work at the cement plant and now I have the entire confidence of all the laborers and the larger number of the rest of the citizens. The members of the union will now do anything that I suggest. My secretary, Mr. Adams, had a conversation with Mr. Fitzgerald about the steam shovel that he threatened to bring from Muskogee on account of not being able to secure men on his proposition. Mr. Fitzgerald told Mr. Adams that his company could not possibly leave Muskogee, for that contract there was bigger than the Ada contract and laborers more difficult to obtain. We have no confidence in Mr. Fitzgerald's threat to bring a ditcher into this town. In the first place, he can't afford to bring the one from Muskogee, and next, it will cost about \$9,000 to buy a new one and if such should be done, it would take from a month to three months to get the machine in here. I know what a steam shovel is and it will not take the place of forty-five men, that's misrepresented, and besides, you can't work a shovel where there is rock and there is lots of rock in the pathway of these trenches. Mr. Fitzgerald's contract calls for a complete job within 100 days, nearly a month of that time is past."

didn't intend to give the cement people any trouble. Ribble stated that he was responsible for the suits filed against the contractor for unpaid wages, declaring that his men needed the money and were unable to wait for pay day. The first suit filed was for 17 hours work at the claim of 25 cents an hour. President Ribble talked much and commented freely to the News reporter. The general directions of his utterances, aside from the above remarks made by him, were philippic in their character against contractor Fitzgerald. Mr. Fitzgerald's record as a contractor was severely criticised.

NELSON HAWKINS GOES UP FOR FORTY YEARS

TRIED IN DISTRICT COURT YESTERDAY—VERDICT THIS MORNING.

Full Blood Indian and All Around Bad Man Will Pay McAlester a Long Visit.

For the cold blooded murder of little six year old Martha Underwood, Nelson Hawkins was this morning given a sentence of forty years at hard labor in the state penitentiary at McAlester by a jury of his peers. The crime was committed on the 27th day of last November at the home of Wilson Toms, who was a brother-in-law of Salina Toms, the widowed mother of the child, and who lived near Flanks. Hawkins went to the place in a drunken condition, and it is understood that he had had some difficulty before with the widow. At any rate she was holding the child in her lap when the shot was fired, the ball passing through the child's body and cutting off a thumb from the hand of the mother. The child died in a few hours, and on the day following Hawkins was arrested and placed in jail. After a preliminary trial he was released on bond, during which time it is said that ashle from drinking he has led rather a quiet life. His trial was commenced yesterday afternoon and finished last night, the court holding a night session in order to finish the case. The jury readily agreed on a conviction, though it is understood that some of them contended for a verdict of first degree murder with the death penalty attached. It was reduced to manslaughter, however, and Hawkins was given 40 years.

This is undoubtedly one of the most wanton and reckless crimes ever placed on the records of an Oklahoma court, and while it is marvelous that he escaped the gallows, yet, forty years in the pen, if served out, will put his marksmanship and thirst for red liquor badly in the discard. Pontotoc county is tired of lawlessness, absolutely tired, and they are setting an example that will survive the present day citizenship by a century. If murderers and cut throats are eliminated from society it may then be said with some degree of truth that the courts of the country are the bulwarks of civilization.

MRS. LILLARD DIES.

A Resident of the Lovelady Community—Other News From That Good Section.

The News' friend, J. F. Thompson, of the Lovelady community, was a Saturday morning visitor. He conveyed the sad intelligence that Mrs. Robert Lillard of his community had died Thursday night of dropsy. Mrs. Lillard was confined to her bed about two months preceding her death. There are seven children left to mourn and suffer on account of the loss of their mother, the oldest being about 19 years of age and the youngest a baby of the age of about one month. Mrs. Lillard will be buried at Frisco today, Saturday.

On inquiry, Mr. Thompson suggested that the people of his community were getting along generally very well and that crops were in fair shape and prospects were reasonable. He stated that the rain which visited Ada on Friday also covered his country. Mr. Thompson was informed by the News man that the rain of yesterday was more or less general over the state.

MISS GLADYS TORBET HOME Her Return Occasion of Family Re- union at Pretty Home on 17th Street.

Miss Gladys, charming daughter of Mr. and Mrs. Sam M. Torbett arrived from Belmont, the leading young ladies seminary of the east, last evening.

Col. G. H. and Mrs. Bruce (grandpa and grandma) and uncle and aunt, Mr. and Mrs. H. E. Foster each family of Ardmore came in this morning to meet Miss Gladys and to participate in the family reunion. It was thought that Messrs. Peek Bruce a prominent merchant of Pauls Valley and Stanley Bruce, prominent state insurance agent of Oklahoma City, with respective families would arrive this morning for the pleasant event of the reunion, but were delayed.

Mr. Torbett when met was smiling a smile actually contagious. He said that since Miss Gladys' return, except for short intervals for sleep

she had continued an incessant stream of conversation, but from Colonel Sam's happy remarks it did appear that he would be glad if she should keep on forever.

Miss Gladys' numerous friends among Ada's young society will especially welcome her return home.

Scribner Indictments.

The indictments delivered to the court by the grand jury in the case of Mrs. Frank Scribner only include the Scribner brothers. While they are connected with the Putnam case by indictments, Lee, Impson and Johnson are not connected with the Scribner case.

With the rendering of these last indictments the cases are both covered, showing those who are connected and how. It is understood that these trials will commence at an early date.

LOCAL LABOR SITUATION.

There appears on the front page of
this paper an article including in
substance the actual comments made
to the writer by one W. W. Ribble
anent his attitude and position toward
the local labor situation, a situation
for which he claims the credit and
accepts the responsibility.

The News publishes the more pro-
nounced and intelligible comments
and assertions made to its representa-
tive by Mr Ribble for the reason
that he is the accredited leader of
the local Federation of Labor and it
is thought that a study of his state-
ments will enable the honest union
laborers and other fair and honest
citizens of the city to arrive more
readily at a clear understanding of
the real situation and the probable
future attendant results.

The News was sincerely glad that
the citizens engaged on the sewer-
age works enforced a proposition
from the contractor proposing a sub-
stantial increase over the original
scale determined by him, even, if the
original scale, that of 17 1-2 cents
proposed by him was an advance of
3-4 to 1 1-2 cents over the previous
usual scale paid in this city for
what is ordinarily termed common
labor. The union turned down an offer
of 20 cents and upward an hour
at last night's meeting and refused to
return to work for less than 25
cents an hour.

It would be fine indeed if all the
citizens of Ada who must do manual
labor to maintain a support could
command a flat rate of 25 cents an
hour for all work accomplished. It
would not only enable them to afford
better support for their families,
but as well would afford them a few
hours for rest and recreation. Then,
too, if such a wage scale could be
established generally and permanent-
ly throughout the city, it is thought
that many business and professional
men of the city, including the writer,
could to advantage avail them-
selves of the opportunity to develop
their muscles and replenish their
pockets. In the event, there should
be secured a general flat wage scale
of 25 cents at this point, through
the tactful ability of President Ribble
the industries in other cities here-
around many as well get in line or
send for the dagoes, or else their
employees will be coming to Ada by
the train loads.

An honest day's labor in the ditches
or any where else in this country
performed by a white man should
bring more than has been the cus-
tom to pay in the past, provided those
agencies employing the labor can
possibly maintain the business and
its necessary incumbrances at an
advanced wage scale. The News is
perfectly confident that the qualified
home loving laboring citizens of this
city will handle all propositions
involving labor in this city properly
and successfully. It has been proven
absolutely on several occasions in
the past that they can be de-
pendent upon to live up to the just
and the best on any proposition, and
the News for one does not believe
that any soft, puffy handed stranger
and agitator can ever acquire any
leadership over them

Sentenced Today.

Orville Weaver, who was tried and
convicted in the early part of the
week on a charge of receiving stolen
property, was sentenced by Judge
Rainey in the district court this
morning. He was given a fine of
\$150 and a jail sentence for six
months.

GRAND JURY ADJOURNS
FOR PERIOD OF TWO WEEKS

WILL MEET AGAIN ON JUNE 7TH
TO INVESTIGATE MINOR
OFFENCES.

Two Weeks Session Just Held Has
Been Devoted Principally to
Higher Crimes.

The district court grand jury which
has been in session for fifteen days
adjourned this morning to meet June
7th. The jury has had a strenuous
two weeks session and they felt that
they needed the rest. They made a
final report to the court, exact copy
of which follows:

To Hon. Robert M. Rainey, Judge of
the Seventh Judicial District, Pon-
totoc County State of Oklahoma.
We, the grand jury of Pontotoc
County, State of Oklahoma, for the
present term of this honorable court
beg leave to submit to your honor, at
this time, the following report:

We have been in session for 15
days, during which time we have had
sworn and examined before us 257
witnesses. We have investigated all
grades of crime and as a result of
our investigations, have returned into
court 33 true bills of which 22 are
for felonies and 16 are for misde-
meanors. We would respectfully state
to your honor that we have given
most of our attention and time to in-
vestigating the higher grades of
crime in this county and for that reason
we have necessarily had to work
slow and careful.

We also state that we find that
there are many other violations of
the law yet to be investigated which
we have not yet had time to look in-
to. We have decided to adjourn for a
period of two weeks, or until the 7th
of June, when we will again con-
vene to continue our investigations.

We also recommend, at this time
that the Board of County Commis-
sioners of Pontotoc County, provide,
at once, a private room for the dis-
trict judge of this county, which can
be used by him for his chambers. Also,
we recommend that the said Board
of Commissioners, have the back stair-
way to the court building repaired,
at once, as we have examined it and
find that it is in a dangerous condi-
tion. Also, that they see to it that
the back yard of the jail be kept
in a more sanitary condition, both on
the inside and out side of the jail
yard. We would, also, report to your
honor that we have found a number
of true bills for which indictments
have not yet been drawn and which
we have not yet reported in to court.
Respectfully submitted,
G. T. LANCASTER, Foreman

NEGRO FIEND IS
CAPTURED NEAR WEELETKA

JOE WILLIAMS, COL., WHO AS-
SAULTED MRS. COLE.

Mob Violence Is Feared and Officers
Are on the Alert.

Weleetka, Ok., May 21.—After be-
ing trailed by a posse of officers for
two days, hunted by armed farmers
who were incensed over the assault
made Wednesday upon Mrs. Cole, the
17-year-old bride of a month, at her
home near Sharp postoffice, the un-
known negro who assaulted the young
woman was captured at Spring
school house seven miles north of
here early this morning by a sher-
iff's posse.

The negro did not resist when
sighted, but surrendered peaceably.
Had he showed fight he would have
been riddled with bullets. He ad-
mitted having struck Mrs. Cole, but
denied that he tried to criminally as-
sault her. He says that he asked the
woman for a drink of water and she
in return struck him with a broom.
Angered by this treatment, he de-
clared he retaliated by striking her.
He then fled.

Constable Wagoner in charge of
the prisoner left here on the noon
train for Okmulgee, where the ne-
gro will be placed in the county
jail. Mrs. Cole will be brought in to
identify him.

Mrs. Cole was attacked Tuesday
afternoon while at work in a field
near her home. She was found un-
conscious by a farmer who notified
Mr. Whitecotton, the girl's father.
She was badly bruised, but not dan-
gerously hurt. Excitement was high
in the neighborhood and the farmers
left their fields to hunt the negro.
All Wednesday night and Thursday
armed men have been scouring the
country.

Okmulgee, Ok., May 21.—Late this
afternoon it was learned that Joe
Williams, in charge of Deputy sher-
iffs Will Henry and Mark Moore, was
on his way to Muskogee, where he
will be placed in the federal jail for
safe keeping. The officers are tak-
ing a round about way and will ar-
rive in Muskogee on the Katy train
from Tulsa at 6:55 tonight. Had he

FOR HOTEL INSPECTION.

Law Requires Inspection and a Cer-
tificate to be Hung in a Con-
spicuous Place.

Guthrie, May 20.—Before engaging
hotel accommodations the experi-
enced traveler will soon be looking for
the certificate signed by the board
of health, stating that the hotel has
been thoroughly inspected, and com-
plying with the law in all respects.
The Oklahoma law requires inspection
and a certificate to be hung in a
conspicuous place. Dr. J. C. Mahr
of Shawnee, Okla., the state com-
missioner of health has instructed
the county superintendent of public
health whose duty it is under the
law to conduct these inspections, in
each county, to commence their semi-
annual inspection not later than
June first.

Not only will the inspector give a
certificate to the hotel, but will make
an exhaustive report to the state
board of health concerning the con-
dition of the hotel inspected.

The state board of health will ex-
pect each hotel in the state to make
a diligent effort to comply with the
law that the public shall be pro-
tected in case of fire, that the san-
itary conditions must be good, that
the building should be properly
screened and that each hotel shall
be thoroughly fumigated as provid-
ed by law. A rigorous enforcement
of this law will go far towards
stamping out malignant and conta-
gious diseases.

Deafness Cannot Be Cured
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, O.

Mr. Snyder, Hoosier Capitalist and Large Ada Investor Tells the News of His and Friend's Confidence in Ada's Future.

Petersburg, Ind., May 20, 1909.—Editor Ada Weekly News, Ada, Okla. Dear Sir: I again visited Ada as you are aware of and while in your city a few days since, I fully intended to call at the office, but shortly after arriving in the city I got busy and by time was completely taken up until my departure. Mr. S. J. Haines, one of our very best business men and citizens, accompanied me on my trip, and while in Ada, I gave him the most of my time, endeavoring to show him the many good opportunities for a live business man to become interested in Ada, and he saw many opportunities for profitable investments in and surrounding your city, and in time I am afraid our loss will be your gain, as since our return home I have sounded him to the core and he says: "For many years I have had a desire to visit Oklahoma and more especially the Indian Territory proper. That part of the state," he says, "undoubtedly has a great future and many of the communities are growing so rapidly that they imagine they have all the growth; but after all, Ada looks the best to me of all the places we visited. She is certainly destined to be one of the hub cities of Oklahoma." He says, "With the amount of rich agricultural lands being put into cultivation and the new orchards, the substantial farm houses and other improvements taking place surrounding Ada for miles, with at least a quarter of a million of dollars to be spent in Ada this year for public buildings, business houses and cozy homes, there is no reason why there should not be a record breaking advancement in real estate," and that he intends to return to Ada and get in and get his feet wet on some investments.

Some of his friends, as well as mine, are threatening to tie me up to a tree and give me thirty-nine lashes for allowing him to join me on the trip, and in order to avoid being lashed on account of Mr. Haines having formed such a favorable impression of Ada, I have laid the blame on Mr. Frank Jones and the president of your 25,000 Club, Mr. Lucas, as while in Ada on several occasions these three gentlemen were seen having a very close conference. In fact, Mr. Jones and Mr. Haines got right down to a whispering proposition, and when I approached Mr. Haines about the matter he claimed he was trying to influence Mr. Jones to write a friendship letter to a certain rich widow in our town with a view of matrimony a little later. Yours truly,
H. R. SNYDER.

C. W. ADAMS' STATEMENT.

Sec'y. Adams, Local Labor Union Indicts Statement on Account of Purported Statement That He Had Threatened to Kill.

I quit working because I was denied the privilege of getting a drink of water so often. In company with another man and his wife and my wife, after I quit work we visited the cement plant. Mr. Curtis authorized me to leave the cement plant and not to be found around there because I had threatened to sue the company for my pay and had my name on a list organizing a union. I want to deny making any threats and establish the fact that I did not make any threat of killing Mr. Curtis and defy any one to establish the fact that I have.
C. W. ADAMS.

SOME REASONS WHY IT PAYS

THE FARMER TO HAVE A TELEPHONE

The dollars saved keeping in touch with the markets will pay the price many fold

In case of an emergency when a doctor or neighbor is needed, life or property may be saved.

The telephone has done away with the old time isolation that handicapped social life in the country and drove young people to the city.

It is then a saver of life, money and property and is a pleasure to all the family. For information regarding rates and manner of securing the service consult with your nearest local manager.

One Dollar Will Make You Two in Glenwood

The Big Fortunes in Oklahoma have been made in City Property--not in one city alone but in dozens of them. Ada is a comer--come along

The splendid growth of Ada is creating a constant demand for resident lots. This reason impels us to place on the market the beautifully located

Glenwood Addition

Located on the North side of Main street, four blocks west from business on high, well drained ground overlooking Glenwood Park to which the city has a deed and will immediately proceed to beautify with grassy lawns, flower beds, graveled drives, shade trees, rustic bridges, a lake, pavillion, etc., making it the

Beauty Spot of Ada

and Glenwood Addition the choicest residence section. The great argument used by cities in favor of the creation of parks is that it doubles the value of real estate in the vicinity, thus giving enough increased assessable values to take care of the cost.

The money is in the City Treasury to make these park improvements and when they are completed you will see a rapid rise in Glenwood lot prices.

Buy Now

and get the advantage of the increase

Don't Wait

to see if these things are going to happen for if you do prices may be out of your reach and you will have lost another opportunity.

No Matter

Where the various industries may locate you are central and not dependent upon any single one but have the entire city behind your property value. The best property is close in property and especially where it is as good as the best and as cheap as the far out property.

This is the last opportunity for the better class of people of limited means to secure a choice home site close in for a small amount of money.

"A prophet is not without honor save in his own country and in his own house."

So it is with many of the people of Ada, they do not appreciate or realize what we already have behind our city nor the varied and substantial resources we have upon which to base our future growth.

No City in Oklahoma

of double the population of Ada can show as large a pay roll.

The inspector for one of the leading city loan companies remarked to the writer a few days ago that nowhere in Oklahoma in towns of similar size to Ada was property as cheap and that an increase in values was sure to come.

Ada has never been advertised but its light will not always be hid under the half bushel. The city is beginning to be talked about as one of the goodcities of the state with a bright future.

SOMEWHERE in southeast Oklahoma a large city is going to be built. Study your map and you will find that Ada has the advantage of location. Nature gave it to her. The ride between the two Boggies and Sandy gave us the Frisco. Being at the head of Boggy gave us the Katy and the gap south of town gave us the Oklahoma Central. We are in the pathway to the coal and the gulf. Other roads will come because of what we have. Factories will come because of our railroads and raw material. Wholesale houses will come because they can reach more customers out of Ada than elsewhere. History will repeat itself here the same as in other new countries. Its merely the law of supply and demand--that of supplying the demands of each section through these centers of distribution.

More good things are looming up--the impetus is gathering that will whoop along the growth of Ada and make its property owners rich. It will be your own fault if you are not one of them. Glenwood lots are within the reach of all and your profit is certain. Don't miss this opportunity.

OUR GUTHRIE CORRESPONDENT

Guthrie, May 21.—Acting superintendent of the state agency, S. W. Stone, negotiated with the Turk-Chanowsky Liquor Company of Gainesville, Tex., for the sale of a mixed car load of confiscated liquors consisting of beer and whisky. The sale is F. O. B. Gainesville and the price for bottled in bond whiskey was six dollars per case and five dollars per barrel for beer. The total amount was \$1,629.75.

This money reverts to the state treasurer and is used to bear the expenses of prosecuting the prohibitory law violators. This method of capturing the boot-leggers' goods and using the proceeds of the sale to bear the expenses of the prosecution appears to be a very effective way of upholding the prohibitory law. Boot-leggers engaged in the enterprise for the profits very uncertain to say the least.

Congressman McGuire is out in a long statement in which he says the election law is very very bad and will prevent good men from voting.

This is the same McGuire that declared that the Oklahoma constitution was the worst ever written and advised the people to vote against it alleging that it would ruin the state if adopted.

Mr. McGuire appears to have been actuated by selfish motives in dealing out both of the aforesaid doses of political advice.

When it is remembered that his election was gained through the enormous negro vote in his district and that the negro vote in Logan county alone is more than his entire majority, it can readily be seen why Bird is afraid that the "good men" will be prevented from voting on account of the educational test.

The different departments of state are using every effort to place themselves in close touch with the people. At the State Grain Dealers' Association, the Agricultural Department and the Corporation Commission were represented by C. F. Barrett, Sec'y. of the Board of Agriculture, and Jack Love, chairman of the Corporation commission, both of whom de-

livered instructive addresses along the lines of the work in which their different departments are engaged.

Both addresses were well received and greatly appreciated by the Ass'n.

Volume 20 of the Oklahoma Reports containing the opinions of the Supreme Court delivered during the first five months of Statehood, is now out and ready for distribution. It is a handsome book of 950 pages, well edited and indexed. The price charged for Oklahoma State Reports contrasts strikingly with the prices prevailing during Territorial days--just one half as much, notwithstanding the new volumes contain 25 percent more matter.

The office of State Reporter is a busy one these days. Proof reading is in progress on the Session Laws 1909 and Volume 21 of the Supreme Court Reports, while the Reporter is compiling decisions for Volume 22 of the latter and Volume 1 of the Oklahoma Criminal reports. The great volume of opinions being handed down by the two higher courts keeps the reporting department on

the jump. Enough opinions have accumulated to fill almost two volumes for the criminal Court of appeals and four for the supreme court. Reporter Parker hopes, within a few months to catch up with the heavy output. However, the work of putting into print the law of the state is necessarily a slow process. It requires infinite pains and patience. After the weeks of careful work required for the compilation of a volume, then some sixty days must be allowed for printing and proof reading.

The News First.

The News was the first union proposition in the city and the same was promoted and encouraged by the writer. The advent of the Federation of Labor into this city is welcomed. It is hoped and believed that its fortunes will be guided by the bonified citizens and home lovers of Ada and not by agitators and disreputables.

NUMBER 48

CHIEF RIBBLE, ADA LABOR LEADER HAS MUCH BIG TALK WITH NEWS

Twenty-five Cents or Nothing. Talk About Ditcher a Scarecrow. Declares Men Will Do As He Says; Fitzgerald Criticised by President Ribble.

Mr. Thomas Ribble, president of the Ada local of the American Federation of Labor, was a caller at the News office today. Inquiring of him as to the local labor situation, president Ribble, in substance stated: "The union met last night in a large meeting probably 225 members of the newly organized union being present. The principal business of the session was that incident, the taking in of new members, concluding the details of the organization and the full consideration of the proposition of Mr. Fitzgerald to return to work on the scale of twenty cents and upward. Those other than members of the union addressing the meeting were the mayor of the city, Hon. L. J. Little and attorney for the union, Judge R. C. Roland. Judge Roland delivered an address which was very much appreciated. The mayor urged some action which would refrain Mr. Fitzgerald from bringing in the ditcher or steam shovel, but advised a vote on all matters requiring a final decision. Mr. Little showed himself as being a friend to the union side of the proposition. A vote was had on Mr. Fitzgerald's proposition of a scale of 20 cents and upward and the negative vote was absolutely unanimous. When the union had voted down this proposition, I took a series of votes, first whether the union would accept 21 cents, then 22 cents, then 23 cents, then 24 cents and in each instance the unanimous vote was 'No.' Then I put the vote as to whether the union would accept 25 cents an hour flat rate for eight hours work; the unanimous vote was 'Yes.' Inquiry was further made of Mr. Ribble, president of the local union, concerning his general attitude as president of the union toward the present labor situation. Mr. Ribble in substance made further statement following a line of inquiries made by the News reporter: 'Notwithstanding the charter will not reach here before Monday, under the laws of our federation we are authorized to cooperate and act as a union ahead of a receipt of a charter when application has already been made for such charter. There were present last night about 225 members of the union. There are now about 75 additional applications for membership, being from citizens who are ready to come in when they secure money for labor performed which will enable them to pay their initiation fees. I would judge that there are about 400 laborers in this city, the entire number of whom we prospect getting into the union. I have found

out that the majority of business citizens, since I have talked with them, over the city are in favor of the union and the position it has taken as to the scale of wages demanded. Several merchants have stated that they would not employ teamsters and haulers who did not belong to the union. At last night's meeting, a committee was selected to utilize any monies in the treasury, there being about \$225.00 on hand now for the purpose of taking care of the family of any destitute laboring citizens, and authorization was given to purchase as much as \$3.00 worth of groceries for any such family. The committee was requested not to use any discrimination as to the stores they might patronize in the purchase of any groceries. The best people in town approve our actions, including the chief of police, Geo. Culver and the sheriff, Tom Smith. Most of the business men consider our proposition the best thing that ever came to town. I worked at the cement plant for about three months as electrician. I resigned there some time ago in order to devote more time to the promotion and organization of the local union of the federation of labor.'

Further inquiry was made of President Ribble whether he was engaged as a traveling organizer for the federation of labor and whether he came here with a single view of organizing a union. In substance, Mr. Ribble replied the following: 'No, I am merely a member of the union. If I had come here simply as an organizer, I couldn't have obtained the confidence of the common laborers. As it was, I came here and went to work at the cement plant and now I have the entire confidence of all the laborers and the larger number of the rest of the citizens. The members of the union will now do anything that I suggest. My secretary, Mr. Adams, had a conversation with Mr. Fitzgerald about the steam shovel that he threatened to bring from Muskogee on account of not being able to secure men on his proposition. Mr. Fitzgerald told Mr. Adams that the steam shovel owned by his company could not possibly leave Muskogee, for that contract there was bigger than the Ada contract and laborers more difficult to obtain. We have no confidence in Mr. Fitzgerald's threat to bring a ditcher into this town. In the first place, he can't afford to bring the one from Muskogee, and next, it will cost about \$9,000 to buy a new one and if such should be done, it would take from a month to three months to get the machine in here. I know what a steam shovel is and it will not take the place of forty-five men, that's misrepresented, and besides, you can't work a shovel where there is rock and there is lots of rock in the pathway of these trenches. Mr. Fitzgerald's contract calls for a complete job within 100 days, nearly a month of that time is past. President Ribble was asked how far he intended to have his union extend its operations, at the present time, whether or not he intended to reach further than the public works and require the labor employed in other industries in the city to strike for high wages. In substance he replied, 'We are not strong enough yet, especially shall we refrain from interfering at the cement plant. The fifty men employed at the cement plant who belong to our union have signed an agreement to remain at the cement plant and at any rate, not to seek to secure employment on the public works in this city.'

Mr. Ribble after making the above statement, added as an after-thought that he wished it understood that he

didn't intend to give the cement people any trouble. Ribble stated that he was responsible for the suits filed against the contractor for unpaid wages, declaring that his men needed the money and were unable to wait for pay day. The first suit filed was for 17 hours work at the claim of 25 cents an hour. President Ribble talked much and commented freely to the News reporter. The general directions of his utterances, aside from the above remarks made by him, were philippic in their character against contractor Fitzgerald. Mr. Fitzgerald's record as a contractor was severely criticised.

NELSON HAWKINS GOES UP FOR FORTY YEARS

TRIED IN DISTRICT COURT YESTERDAY—VERDICT THIS MORNING.

Full Blood Indian and All Around Had Man Will Pay McAlester a Long Visit.

For the cold blooded murder of little six year old Martha Underwood, Nelson Hawkins was this morning given a sentence of forty years at hard labor in the state penitentiary at McAlester by a jury of his peers. The crime was committed on the 27th day of last November at the home of Wilson Toms, who was a brother-in-law of Salina Toms, the widowed mother of the child, and who lived near Flanks. Hawkins went to the place in a drunken condition, and it is understood that he had had some difficulty before with the widow. At any rate she was holding the child in her lap when the shot was fired, the ball passing through the child's body and cutting off a thumb from the hand of the mother. The child died in a few hours, and on the day following Hawkins was arrested and placed in jail. After a preliminary trial he was released on bond, during which time it is said that aside from drinking he has led rather a quiet life.

His trial was commenced yesterday afternoon and finished last night, the court holding a night session in order to finish the case. The jury readily agreed on a conviction, though it is understood that some of them contended for a verdict of first degree murder with the death penalty attached. It was reduced to manslaughter, however, and Hawkins was given 40 years.

This is undoubtedly one of the most wanton and reckless crimes ever placed on the records of an Oklahoma court, and while it is marvelous that he escaped the gallows, yet, forty years in the pen, if served out, will put his marksmanship and thirst for red liquor badly in the discard. Pontotoc county is tired of lawlessness, absolutely tired, and they are setting an example that will survive the present day citizenship by a century. If murderers and cut throats are eliminated from society it may then be said with some degree of truth that the courts of the country are the bulwarks of civilization.

MRS. LILLARD DIES.

A Resident of the Lovelady Community—Other News From That Good Section.

The News' friend, J. F. Thompson, of the Lovelady community, was a Saturday morning visitor. He conveyed the sad intelligence that Mrs. Robert Lillard of this community had died Thursday night of dropsy. Mrs. Lillard was confined to her bed about two months preceding her death. There are seven children left to mourn and suffer on account of the loss of their mother, the oldest being about 19 years of age and the youngest a baby of the age of about one month. Mrs. Lillard will be buried at Frisco today, Saturday.

On inquiry, Mr. Thompson suggested that the people of his community were getting along generally very well and that crops were in fair shape and prospects were reasonable. He stated that the rain which visited Ada on Friday also covered his country. Mr. Thompson was informed by the News men that the rain of yesterday was more or less general over the state.

MISS GLADYS TORBET HOME

Her Return Occasion of Family Reunion at Pretty Home on 17th Street.

Miss Gladys, charming daughter of Mr. and Mrs. Sam M. Torbett arrived from Belmont, the leading young ladies seminary of the east, last evening.

Col. G. H. and Mrs. Bruce (grandpa and grandma) and uncle and aunt, Mr. and Mrs. H. E. Foster each family of Ardmore came in this morning to meet Miss Gladys and to participate in the family reunion. It was thought that Messrs. Peek Bruce a prominent merchant of Pauls Valley and Stanley Bruce, prominent state insurance agent of Oklahoma City, with respective families would arrive this morning for the pleasant event of the reunion, but were delayed.

Mr. Torbett when met was smiling a smile actually contagious. He said that since Miss Gladys' return, except for short intervals (for sleep)

she had continued an incessant stream of conversation, but from Colonel Sam's happy remarks it did appear that he would be glad if she should keep on forever.

Miss Gladys' numerous friends among Ada's young society will especially welcome her return home.

Scribner Indictments.

The indictments delivered to the court by the grand jury in the case of Mrs. Frank Scribner only include the Scribner brothers. While they are connected with the Putnam case by indictments, Lee, Impson and Johnson are not connected with the Scribner case.

With the rendering of these last indictments the cases are both covered, showing those who are connected and how. It is understood that these trials will commence at an early date.

LOCAL LABOR SITUATION.

There appears on the front page of
this paper an article including in
substance the actual comments made
to the writer by one W. W. Ribble
anent his attitude and position toward
the local labor situation, a situation
for which he claims the credit and
accepts the responsibility.

The News publishes the more pro-
nounced and intelligible comments
and assertions made to its represen-
tative by Mr. Ribble for the reason
that he is the accredited leader of
the local Federation of Labor and it
is thought that a study of his state-
ments will enable the honest union
laborers and other fair and honest
citizens of the city to arrive more
readily at a clear understanding of
the real situation and the probable
future attendant results.

The News was sincerely glad that
the citizens engaged on the sewer-
age works enforced a proposition
from the contractor proposing a sub-
stantial increase over the original
scale determined by him, even if the
original scale, that of 17 1-2 cents
proposed by him was an advance of
3-4 to 1 1-2 cents over the previous
usual scale paid in this city for
what is ordinarily termed common
labor. The union turned down an of-
fer of 20 cents and upward an hour
at last night's meeting and refused to
return to work for less than 25
cents an hour.

It would be fine indeed if all the
citizens of Ada who must do manual
labor to maintain a support could
command a flat rate of 25 cents an
hour for all work accomplished. It
would not only enable them to afford
better support for their families,
but as well would afford them a few
hours for rest and recreation. Then,
too, if such a wage scale could be
established generally and permanent-
ly throughout the city, it is thought
that many business and professional
men of the city, including the writ-
ter, could to advantage avail them-
selves of the opportunity to develop
their muscles and replenish their
pockets. In the event, there should
be secured a general flat wage scale
of 25 cents at this point, through
the tactful ability of President Ribble
the industries in other cities here-
around many as well get in line or
send for the dagoes, or else their
employees will be coming to Ada by
the train loads.

An honest day's labor in the ditches
or any where else in this country
performed by a white man should
bring more than has been the cus-
tom to pay in the past, provided those
agencies employing the labor can
possibly maintain the business and
its necessary incumbrances at an
advanced wage scale. The News is
perfectly confident that the qualified
home loving laboring citizens of this
city will handle all propositions
involving labor in this city properly
and successfully. It has been proven
absolutely on several occasions
in the past that they can be de-
pendent upon to live up to the just
and the best on any proposition, and
the News for one does not believe
that any soft, puffy handed stranger
and agitator can ever acquire any
leadership over them.

Notice.

The singing school which has been
in progress for the last 12 days will
close tonight, Saturday. Everybody
is cordially invited. Come out and be
with us in our closing exercises and
to see what progress we have made
along this line of work. The place
where we are teaching is at the Royal
residence one door north of the
Byrd hotel. So remember the place
and date, Saturday night. We will
also sing at the court house Sun-
day at 10 o'clock a. m. Everybody is
cordially invited to attend the ser-
vices. Truly, W. R. Royal.

Sentenced Today.

Orville Weaver, who was tried and
convicted in the early part of the
week on a charge of receiving stolen
property, was sentenced by Judge
Rainey in the district court this
morning. He was given a fine of
\$150 and a jail sentence for six
months.

GRAND JURY ADJOURNS
FOR PERIOD OF TWO WEEKS

WILL MEET AGAIN ON JUNE 7TH
TO INVESTIGATE MINOR
OFFENCES.

Two Weeks Session Just Held Has
Been Devoted Principally to
Higher Crimes.

The district court grand jury which
has been in session for fifteen days
adjourned this morning to meet June
7th. The jury has had a strenuous
two weeks session and they felt that
they needed the rest. They made a
final report to the court, exact copy
of which follows:

To Hon. Robert M. Rainey, Judge of
the Seventh Judicial District, Pon-
totoc County State of Oklahoma.
We, the grand jury of Pontotoc
County, State of Oklahoma, for the
present term of this honorable court
beg leave to submit to your honor, at
this time, the following report:

We have been in session for 15
days, during which time we have had
sworn and examined before us 257
witnesses. We have investigated all
grades of crime and as a result of
our investigations, have returned into
court 38 true bills of which 23 are
for felonies and 16 are for misde-
meanors. We would respectfully state
to your honor that we have given
most of our attention and time to in-
vestigating the higher grades of
crime in this county and for that reason
we have necessarily had to work
slow and careful.

We, also state that we find that
there are many other violations of
the law yet to be investigated which
we have not yet had time to look in-
to. We have decided to adjourn for a
period of two weeks, or until the 7th
of June, when we will again con-
vene to continue our investigations.

We, also recommend, at this time
that the Board of County Commis-
sioners of Pontotoc County, provide,
at once, a private room for the dis-
trict judge of this county, which can
be used by him for his chambers. Also,
we recommend that the said Board
of Commissioners, have the back stair-
way to the court building repaired,
at once, as we have examined it and
find that it is in a dangerous condi-
tion. Also, that they see to it that
the back yard of the jail be kept in
a more sanitary condition, both on
the inside and out side of the jail
yard. We would, also, report to your
honor that we have found a number
of true bills for which indictments
have not yet been drawn and which
we have not yet reported in to court.

Respectfully submitted,
G. T. LANCASTER, Foreman

NEGRO FIEND IS
CAPTURED NEAR WEELETKA

JOE WILLIAMS, COL., WHO AS-
SAULTED MRS. COLE.

Mob Violence Is Feared and Officers
Are on the Alert.

Weleetka, Ok., May 21.—After being
trailed by a posse of officers for two
days, hunted by armed farmers who
were incensed over the assault made
Wednesday upon Mrs. Cole, the
17-year-old bride of a month, at her
home near Sharp postoffice, the un-
known negro who assaulted the young
woman was captured at Spring
school house seven miles north of
here early this morning by a sher-
iff's posse.

The negro did not resist when
sighted, but surrendered peacefully.
Had he showed fight he would have
been riddled with bullets. He ad-
mitted having struck Mrs. Cole, but
denied that he tried to criminally as-
sault her. He says that he asked the
woman for a drink of water and she
in return struck him with a broom.
Angered by this treatment, he de-
clared the retaliated by striking her.
He then fled.

Constable Wagoner in charge of
the prisoner left here on the noon
train for Okmulgee, where the neg-
ro will be placed in the county
jail. Mrs. Cole will be brought in to
identify him.

Mrs. Cole was attacked Tuesday
afternoon while at work in a field
near her home. She was found un-
conscious by a farmer who notified
Mr. Whitecotton, the girl's father.
She was badly bruised, but not dan-
gerously hurt. Excitement was high
in the neighborhood and the farmers
left their fields to hunt the negro.
All Wednesday night and Thursday
armed men have been scouring the
country.

Okmulgee, Ok., May 21.—Late this
afternoon it was learned that Joe
Williams, in charge of Deputy Sher-
iffs Will Henry and Mark Moore, was
on his way to Muskogee, where he
will be placed in the federal jail for
safe keeping. The officers are tak-
ing a round about way and will ar-
rive in Muskogee on the Katy train
from Tulsa at 6:55 tonight. Had he

FOR HOTEL INSPECTION.

Law Requires Inspection and a Cer-
tificate to be Hung in a Con-
spicuous Place.

Guthrie, May 20.—Before engaging
hotel accommodations the experi-
enced traveler will soon be looking for
the certificate signed by the board
of health, stating that the hotel has
been thoroughly inspected, and com-
plying with the law in all respects.
The Oklahoma law requires inspection
and a certificate to be hung in a
conspicuous place. Dr. J. C. Mahr
of Shawnee, Okla., the state com-
missioner of health has instructed
the county superintendent of public
health whose duty it is under the
law to conduct these inspections, in
each county, to commence their semi-
annual inspection not later than
June first.

Not only will the inspector give a
certificate to the hotel, but will make
an exhaustive report to the state
board of health concerning the con-
dition of the hotel inspected.

The state board of health will ex-
pect each hotel in the state to make
a diligent effort to comply with the
law that the public shall be pro-
tected in case of fire, that the san-
itary conditions must be good, that
the building should be properly
screened and that each hotel shall
be thoroughly fumigated as provid-
ed by law. A rigorous enforcement
of this law will go far towards
stamping out malignant and conta-
gious diseases.

his office and in the office of the
city clerk. Each bid must be ac-
companied by a certified check, equal
to five per cent of the bid, which
check will be forfeited to said city
in the event of the successful bidder
failing to enter into contract and exe-
cute a construction bond that is sat-
isfactory to the Mayor and city coun-
cil within the time as given in the
proposal. All bids submitted to the coun-
cil must be made upon blanks fur-
nished by the city engineer. The suc-
cessful bidder shall be required to
execute unto said city a good and
sufficient bond, equal to 30 per cent
of the contract price to guarantee the
faithful performance of said work.
Four per cent of said contract price
shall be paid unto said city for en-
gineering expenses. The said City
council reserves the right to reject
any or all bids, to waive defects and
to accept any bid. W. B. Jones,

Deafness Cannot Be Cured
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, O.

Mr. Snyder, Hoosier Capitalist and Large Ada Investor Tells the News of His and Friend's Confidence in Ada's Future.

Petersburg, Ind., May 20, 1909.—Editor Ada Weekly News, Ada, Okla. Dear Sir: I again visited Ada as you are aware of and while in your city a few days since, I fully intended to call at the office, but shortly after arriving in the city I got busy and by time was completely taken up until my departure. Mr. S. J. Haines, one of our very best business men and citizens, accompanied me on my trip, and while in Ada, I gave him the most of my time, endeavoring to show him the many good opportunities for a live business man to become interested in Ada, and he saw many opportunities for profitable investments in and surrounding your city, and in time I am afraid our loss will be your gain, as since our return home I have sounded him to the core and he says: "For many years I have had a desire to visit Oklahoma and more especially the Indian Territory proper. That part of the state," he says, "undoubtedly has a great future and many of the communities are growing so rapidly that they imagine they have all the growth; but after all, Ada looks the best to me of all the places we visited. She is certainly destined to be one of the hub cities of Oklahoma." He says, "With the amount of rich agricultural lands being put into cultivation and the new orchards, the substantial farm houses and other improvements taking place surrounding Ada for miles, with at least a quarter of a million of Dollars to be spent in Ada this year for public buildings, business houses and cozy homes, there is no reason why there should not be a record breaking advancement in real estate," and that he intends to return to Ada and get in and get his feet wet on some investments.

Some of his friends, as well as mine, are threatening to tie me up to a tree and give me thirty-nine lashes for allowing him to join me on the trip, and in order to avoid being lashed on account of Mr. Haines having formed such a favorable impression of Ada, I have laid the blame on Mr. Frank Jones and the president of your 25,000 Club, Mr. Lucas, as while in Ada on several occasions these three gentlemen were seen having a very close conference. In fact, Mr. Jones and Mr. Haines got right down to a whispering proposition, and when I approached Mr. Haines about the matter he claimed he was trying to influence Mr. Jones to write a friendship letter to a certain rich widow in our town with a view of matrimony a little later. Yours truly, H. R. SNYDER.

I quit working because I was denied the privilege of getting a drink of water so often. In company with another man and his wife and my wife, after I quit work we visited the cement plant. Mr. Curtis authorized me to leave the cement plant and not to be found around there because I had threatened to sue the company for my pay and had my name on a list organizing a union. I want to deny making any threats and establish the fact that I did not make any threat of killing Mr. Curtis and defy any one to establish the fact that I have. C. W. ADAMS.

ICE CREAM HOME PRODUCT

We have our own Dairy and up-to-date Ice Cream Factory. Both are run under the inspection of the Pure Food Law. Our factory is in charge of one of the best cream makers that is obtainable. Previous to coming to us Mr. Prescott had charge of one of the largest factories in Kansas City. We put up the goods. With all the above advantages, why shouldn't we? Insist on cream made at our factory and you will not only get the best, but are patronizing a growing home industry.

SOME REASONS WHY IT PAYS

THE FARMER TO HAVE A TELEPHONE

The dollars saved keeping in touch with the markets will pay the price many fold

In case of an emergency when a doctor or neighbor is needed, life or property may be saved.

The telephone has done away with the old time isolation that handicapped social life in the country and drove young people to the city.

It is then a saver of life, money and property and is a pleasure to all the family. For information regarding rates and manner of securing the service consult with your nearest local manager.

One Dollar Will Make You Two in Glenwood

The Big Fortunes in Oklahoma have been made in City Property--not in one city alone but in dozens of them. Ada is a comer--come along

The splendid growth of Ada is creating a constant demand for resident lots. This reason impels us to place on the market the beautifully located

Glenwood Addition

Located on the North side of Main street, four blocks west from business on high, well drained ground overlooking Glenwood Park to which the city has a deed and will immediately proceed to beautify with grassy lawns, flower beds, graveled drives, shade trees, rustic bridges, a lake, pavillion, etc., making it the

Beauty Spot of Ada

and Glenwood Addition the choicest residence section. The great argument used by cities in favor of the creation of parks is that it doubles the value of real estate in the vicinity, thus giving enough increased assessable values to take care of the cost.

The money is in the City Treasury to make these park improvements and when they are completed you will see a rapid rise in Glenwood lot prices.

Buy Now

and get the advantage of the increase

Don't Wait

to see if these things are going to happen for if you do prices may be out of your reach and you will have lost another opportunity.

No Matter

Where the various industries may locate you are central and not dependent upon any single one but have the entire city behind your property value. The best property is close in property and especially where it is as good as the best and as cheap as the far out property.

This is the last opportunity for the better class of people of limited means to secure a choice home site close in for a small amount of money.

"A prophet is not without honor save in his own country and in his own house."

So it is with many of the people of Ada, they do not appreciate or realize what we already have behind our city nor the varied and substantial resources we have upon which to base our future growth.

No City in Oklahoma

of double the population of Ada can show as large a pay roll.

The inspector for one of the leading city loan companies remarked to the writer a few days ago that nowhere in Oklahoma in towns of similar size to Ada was property as cheap and that an increase in values was sure to come.

Ada has never been advertised but its light will not always be hid under the half bushel. The city is beginning to be talked about as one of the good cities of the state with a bright future.

SOMEWHERE in southeast Oklahoma a large city is going to be built. Study your map and you will find that Ada has the advantage of location. Nature gave it to her. The ride between the two Boggies and Sandy gave us the Frisco. Being at the head of Boggy gave us the Katy and the gap south of town gave us the Oklahoma Central. We are in the pathway to the coal and the gulf. Other roads will come because of what we have. Factories will come because of our railroads and raw material. Wholesale houses will come because they can reach more customers out of Ada than elsewhere. History will repeat itself here the same as in other new countries. Its merely the law of supply and demand--that of supplying the demands of each section through these centers of distribution.

More good things are looming up--the impetus is gathering that will whoop along the growth of Ada and make its property owners rich. It will be your own fault if you are not one of them. Glenwood lots are within the reach of all and your profit is certain. Don't miss this opportunity.

OUR GUTHRIE CORRESPONDENT

Guthrie, May 21.--Acting superintendent of the state agency, S. W. Stone, negotiated with the Turk-Chanowsky Liquor Company of Gainesville, Tex., for the sale of a mixed car load of confiscated liquors consisting of beer and whisky. The sale is P. O. B. Gainesville and the price for bottled in bond whisky was six dollars per case and five dollars per barrel for beer. The total amount was \$1,639.75.

This money reverts to the state treasurer and is used to bear the expenses of prosecuting the prohibitory law violators. This method of capturing the boot-leggers' goods and using the proceeds of the sale to bear the expenses of the prosecution appears to be a very effective way of upholding the prohibitory law. Boot-leggers engaged in the enterprise for the profits very uncertain to say the least.

Congressman McGuire is out in a long statement in which he says the election law is very very bad and will prevent good men from voting.

This is the same McGuire that declared that the Oklahoma constitution was the worst ever written and advised the people to vote against it alleging that it would ruin the state if adopted.

Mr. McGuire appears to have been actuated by selfish motives in dealing out both of the aforesaid doses of political advice.

When it is remembered that his election was gained through the enormous negro vote in his district and that the negro vote in Logan county alone is more than his entire majority, it can readily be seen why Bird is afraid that the "good men" will be prevented from voting on account of the educational test.

The different departments of state are using every effort to place themselves in close touch with the people. At the State Grain Dealers' Association, the Agricultural Department and the Corporation Commission were represented by C. F. Barrett, Sec'y. of the Board of Agriculture, and Jack Love, chairman of the Corporation commission, both of whom delivered instructive addresses along the lines of the work in which their different departments are engaged.

Both addresses were well received and greatly appreciated by the Ass'n.

Volume 20 of the Oklahoma Reports containing the opinions of the Supreme Court delivered during the first five months of Statehood, is now out and ready for distribution. It is a handsome book of 950 pages, well edited and indexed. The price charged for Oklahoma State Reports contrasts strikingly with the prices prevailing during Territorial days--just one half as much, notwithstanding the new volumes contain 25 percent more matter.

The office of State Reporter is a busy one these days. Proof reading is in progress on the Session Laws 1909 and Volume 21 of the Supreme Court Reports, while the Reporter is compiling decisions for Volume 22 of the latter and Volume 1 of the Oklahoma Criminal reports. The great volume of opinions being handed down by the two higher courts keeps the reporting department on

the jump. Enough opinions have accumulated to fill almost two volumes for the criminal Court of appeals and four for the supreme court. Reporter Parker hopes, within a few months to catch up with the heavy output. However, the work of putting into print the law of the state is necessarily a slow process. It requires infinite pains and patience. After the weeks of careful work required for the compilation of a volume, then some sixty days must be allowed for printing and proof reading.

The News First.

The News was the first union proposition in the city and the same was promoted and encouraged by the writer. The advent of the Federation of Labor into this city is welcomed. It is hoped and believed that its fortunes will be guided by the bonified citizens and home lovers of Ada and not by agitators and disreputers.

Notice of Stockholders Meeting.
Notice is hereby given that at 4:30 o'clock P. M., Tuesday, June 8th, 1909, there will be held in the office of the Ada Savings & Loan Co., a stockholders meeting for the purpose of electing a board of directors and officers for the ensuing year Tom Hope, President; E. W. Hardin, Secretary.
